Universal Joint - Exploded View

Drawing 1 of 1	Exploded view	Rev. 001 16/11/98 - version 2 drive shaft added. Rev. 002 04/11/02 - 0.9mm Dia. drive shaft deleted. 1/16" Dia. bar drive shaft deleted.
<p>Universal joint and drive shaft parts: (1) U.J. Socket (2) U.J. T-piece (3) Drive shaft</p> <p>Cut drive shaft to the length required and Loctite a T-piece to each end.</p> <p>Please note: When cutting drive shaft to length, remember to allow for a small amount of end float between the drive shaft and T-pieces and the U.J. sockets. This is to stop the U.J. T-pieces from bottoming out in the U.J. sockets when the drive shaft is rotating.</p>		
version 1 1/8" (3.2mm) Dia. tube		
version 2 1/16" (1.6mm) Dia tube
